Kent Marine Tech M Magnesium

Â Product Description:
Techâ€¢M Magnesium supplement is a ionically balanced product which will safely raise the magnesium level in any marine system without upsetting the ionic balance of the system. Techâ€¢M is very concentrated, containing over 70,000 ppm of cationic magnesium, and is nitrate, phosphate and gluconate free! Directions:
Important: Shake vigorously immediately prior to use! The preferred method is to test the magnesium level in your aquarium, then add Techâ€¢M at the rate of 1 ml per gallon aquarium capacity per day to bring the level to between 1250 and 1350 ppm. This will raise the level by 18.4 ppm per day. As a routine supplement, if not testing, add two teaspoons (2 capfuls or 10 ml) per 50 gallons tank capacity every week in all marine systems.Available Size: 16 oz,Â 64 oz, 1 gallon & 5 gallon
