Kent Marine Marine•C

Â Product Description:
Vitamin C has been shown to enhance the immune system of fishes and invertebrates, as well as facilitate the metabolism of fatty acids, and stimulate the production of connective tissue, such as that damaged by head and lateral line erosion, coral propagation, bacterial and parasitic infestations, and wounds. Marineâ€¢C helps correct vitamin C deficiencies in ornamental marine organisms. Can be used as a daily supplement or when treating damaged/sick fishes and invertebrates, although not a medication. Particularly useful when fragmenting and propagating hard and soft corals. Important: read Use & Interaction on opposite sidebar before use!Directions:
For general use and to aid fishes that are ill, damaged or invertebrates that have been recently fragmented, add 1 ml (cap on 8 oz. bottle equals 5 ml, cap on 64 oz. bottle equals 10 ml) per 50 gallons aquarium water daily. Observe reaction of aquarium residents and adjust dosage accordingly. Do not overdose!Available Sizes: 1 oz, 4 oz, 8 oz, & 64 oz
