

Weiss Organics Bacter Boost

"Fully cycles a new aquarium

in two days "That's Right, Two Days!!! Boosts the biologicals of an established aquarium to maintain an ongoing cycle Organically breaks down solid and soluble waste Product Description: Bacter Boost™ is 100% organic. The quality nature of the formulation will not interfere with any of the other additives within the aquarium when added. A 6 oz. bottle will treat 600 gallons of aquarium volume. Bacter Boost™ provides the ability of the water to host an exponential growth medium for subcultures. These subcultures will provide a food supply for the larger macro cultures (fish, coral, etc.) These subcultures will also provide beneficial gasses such as O₂ and CO₂ proportionally.

When Bacter Boost™ is added to a new aquarium, 48 hours is generally the amount of time it takes to provide the necessary metabolic environment for the larger species.

When adding Bacter Boost™ to an established aquarium, it will fill in the missing blanks of the food chain through a process of water ion transfer. Filling in the blanks equates to an improved healthier environment. INGREDIENTS:
Vitamins: Ascorbic Acid, Beta-Carotene, Cyanocobalamin, Fluoride, Folic Acid, Histamine, K, Pyridoxin, Retinol, Riboflavin, Thiamin
Minerals: Ca, Cr, Cu, Fe, K, Mg, Na, P, S, Se, Si, Mn, Zn
Derived from ferment of: Asparagus Officinalis (Asparagus), Camellia Sinesis (Black Tea), Cayenne Pepper, Citric Acid, Citrus Molasses, Cucurbitaceae (Pepo) (Green Pepper), Xanthan Gum, Yucca
