Seachem Reef Trace

Â Product Description:
Reef Traceâ„¢ supplies a broad range of trace elements demonstrated to be necessary for proper reef health and growth. Trace elements are normally depleted by utilization, oxidation and precipitation. The latter two processes occur more rapidly than with other micronutrients. This makes it important to restore trace elements on a regular basis. Reef Traceâ„¢ may be used alone or in conjunction with Reef Plusâ„¢. Best results are obtained when both are used. Reef Traceâ„¢ is nitrate/phosphate free.Guaranteed Analysis (amounts per 1 g)Boron 0.028 mg Cobalt0.0003 mgCopper0.032 mgMaganese0.085 mgMolybdenum0.003 mgZinc0.169 mgRubidium0.00008 mgNickel0.00003 mgVanadium0.00002 mgDirections:
Use 1 capful (5 mL) for every 80Â L (20 gallons*) twice a week.Available Sizes: 250 ml, 500 ml, 2 L, 4 L, 20 L
