

Marc Weiss Coral Vital

Â "The Reef Life Energizer"Â

- Accelerates growth of coralline algaeÂ
- Corals "Open Up"Â
- Color enhancerÂ
- Promotes coral polyp regeneration and reproductionÂ
- Aids damaged coralsÂ
- Removes Bio-mass

Product Description:

The purpose of Coral Vital is to relieve stress caused to Coralline Algae. The stress is generally created by the binding of beneficial substrates within the aquatic environment, eliminating their use and effectiveness. Coral Vital has an array of minerals with carriers of invert sugars that replace the bound substrates. Once the stress induced by the bound substrates has been alleviated, corals will "open up" plus regain their full color spectrum.Â

INGREDIENTS:

Vitamins: Vitamin A, Vitamin D3, Vitamin E

Trace Minerals: Calcium, Cobalt, Copper, Extract, Fluorine, Iodine, Iron, Magnesium, Manganese, NaCl, Phosphorus, Potassium, Selenium, Sulfur, Zinc

Derived from ferment of: Biotin, Calcium carbonate, Calcium Iodate, Calcium Pantothenate, Cobalt Protein, Cobalt Sulphate, Copper Protein, Copper Sulfate, DiCalcium Phosphate, Ethylenediamine Dihydriodide, Folic Acid, Iron Sulfate, Magnesium Oxide, Manganese Protein, Manganous Oxide, Menadione Sodium B, Monocalcium Phosphate, Niacin, Cohlone Chloride, Potassium Sulfate, Pyridoxine Hydrochloride, Riboflavin Supplement, Selenium Yeast, Sodium Selenite, Sulfite Complex, Thiamine Mononitrate, Vitamin A Supplement, Vitamin B12 Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Zinc Protein, Zinc Sulfate

Bio-catalysts: Aloe Vera, Cane molasses, Citric Acid

Inert Carriers: Crude Fiber Extract, Crude Protein

Available Size: 6 oz , 16 oz
