

Marc Weiss Immuno Vital

"Stress relief and immunity enhancer"

Ideal for acclimation of new sea life

Formulated for Marine and Freshwater

- Enhances beneficial microbes that compete with disease organisms
- Stimulates the aquatic immune system
- Enhances the production of beneficial proteins
- Facilitates transport of oxygen to cells

Product Description: Immuno Vital's application is to buffer a reaction in an unbalanced water condition. The buffering causes a shift from the current stasis of the environment generally yielding increased CO₂ production while inspiring a limited amount of increased light penetration. As the events of mobile CO₂ and light interact, the aquarium will begin to reach a vibrant state of natural equilibrium.

INGREDIENTS:

Vitamins: Vitamin A, Vitamin D3, Vitamin E

Trace Minerals: Calcium, Phosphorus, NaCl, Potassium, Magnesium, Sulfur, Iron, Cobalt, Copper, Manganese, Iodine, Selenium, Zinc, Fluorine

Derived from ferment of: Acacia Senegal, Apricot Leaf, Cyamopsis tetragonolobus, Monocalcium Phosphate, DiCalcium Phosphate, Calcium carbonate, Magnesium Oxide, Potassium Sulfate, Iron Sulfate, Copper Sulfate, Cobalt Sulphate, Manganous Oxide, Sodium Selenite, Calcium Iodate, Ethylenediamine Dihydriodide, Zinc Sulfate, Cobalt Proteinate, Copper Proteinate, Zinc Proteinate, Manganese Proteinate, Selenium Yeast, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Niacin, Chloine Chloride, Riboflavin Supplement, Calcium Pantothenate, Thiamine Mononitrate, Pyridoxine Hydrochloride, Folic Acid, Menadione Sodium B, Sulfite Complex, Biotin, Vitamin B12 Supplement

Bio-catalysts: Cane molasses, Aloe Vera, Citric Acid

Inert Carriers: Gum Arabic, Gum (Prunus armeniaca), Gum Guar, Crude Protein Extract, Crude Fiber Extract
