Aquavitro Fuel

Â

fuelâ,¢ is a comprehensive carbohydrate, vitamin, amino acid, polyunsaturated fatty acid, and trace element supplement developed to address nutritional requirements commonly associated with corals. fuelâ,¢ contains ascorbic acid in a base of chlorella, which contains a rich assortment of amino acids and vitamins. The health benefits of chlorella are widely known and while spirulina, a similar algae, has been regularly used in the industry, aquavitroâ,¢ is the first to utilize the vastly superior chlorella. fuelâ,¢ is formulated to provide nutrients available from natural tropical reef waters.

Chlorella is a unique algae that grows in fresh water. It is extremely high in enzymes, vitamins and minerals, including the full vitamin-B Complex. It is over-flowing with unsaturated fatty acids, amino acids, and proteins. There are also vitamins found in Chlorella including: Vitamin C, pro-vitamin A (B-carotene), thiamine (B1), riboflavin (B2), pyridoxine (B6), niacin, pantothenic acid, folic acid, Vitamin B12, biotin, choline, Vitamin K, lipoic acid, and inositol. Minerals in Chlorella include: phosphorus, calcium, zinc, iodine, magnesium, iron, and copper. It contains a higher level of amino acids than spirulina and is FDA approved for use with ornamental fish. **Directions**

Shake well before using. Use one inner capful (7 ml) for every 110 L (30 gallons*) twice a week or as required to maintain coral growth.

Note: each inner cap thread is approximately 2 mL. One full cap is 49 mL.

Refrigerate after opening. Guranteed Anylisis

amounts per 1 gram			Vitamins		& Lipotropic Factors			
(mi	n. value	s)		Ascorbi	c Acid (Vitamin C)	5.0 mg	
Thiamine (B1)		20µg		Riboflavin (B2)		20µg
