Dymax Anti White Spot

Â DYMAX ANTI WHITE SPOT 300ML
Treatment against Lcthyophithirius & Lymphocystis.

The Anti White Spot is specially formulated to treat against common white spot disease. This is often due to the sudden change of temperature in the aquarium, change of environment of fishes or disease been separate by new fishes. The solution also helps to remove white fluffs and other body fungus that appear on the fish. It is extremely safe to use even in an aquatic plant tank and could cure or treat fishes within 48 hours.
