## Seachem Marine Trace

## **Product Description:**

Marine Traceâ,¢ supplies a broad range of trace elements demonstrated to be necessary for proper fish health and growth. Unlike terrestrial animals, fish obtain nutrients from both their food and environment. Trace elements are normally depleted by utilization, oxidation and precipitation, thus it is important to restore them on a regular basis. Marine Traceâ,¢ contains only those elements actually demonstrated to be required by fish.Guaranteed AnalysisCalcium2.46%Magnesium0.792%lodine (as Iodide)
