

Marc Weiss Spectra Vital

"Maximize growth and color in soft corals and filter feeders"Â

- Corals âœopen upâ€• and flourishÂ
- Colorful life that you didnâ€™t know even existedÂ
- Supplies essential nutrients Â
- Supplies necessary biocatalysts required in a stabilized aquarium

Product Description:

Spectra Vital is designed as a water buffering agent that has specific beneficial effects on soft corals. Corals are relieved of stress in their environment producing growth and naturally enhanced colors.
