

Kent Marine Garlic Xtreme

Product Description:

Garlic Xtreme contains a powerful source of garlic that can serve many purposes in aquariums. Used as a food soak, Garlic Xtreme is a strong attractant, enticing finicky eaters to begin feeding sooner. Additionally, Garlic Xtreme may be used directly in aquarium if fish are not eating. Garlic Xtreme contains no artificial ingredients or steroids, and does not need to be refrigerated!

Directions:

Add 2 drops Garlic Xtreme per teaspoon of fish food each time you feed. Do not feed more than can be eaten in a five minute period. Use particularly if parasites are present or fish have visible wounds or infections. If fish are not eating, Garlic Xtreme may be also added to the aquarium at the rate of 1 drop per 10 gallons.

Available Sizes: 1 oz & 4 oz
