Seachem Clarity

Product Description:
Clarityâ„¢ is the ultimate clarifier for both fresh and saltwater. It employs an advanced polymeric flocculating agent that is both reef and plant safe. Clarityâ„¢ is the only clarifier on the market that does it all! Clarityâ„¢ will clear all types of clouding: bacterial and other biological type blooms, chemical clouding, and particulate clouding (i.e. stirred up gravel bed). When Clarityâ„¢ clears up bacterial clouding it helps to accelerate and enhance the colonization of the biological filter by efficiently relocating these natural biofilms to the biosupport media in the filter. Freshwater and Marine. Plant and reef safe.

Directions:
Use 1 capful (5 mL) for every 80 L (20 gallons*). In some situations the cloudiness may increase slightly after adding Clarityâ„¢, however this is normal and is a sign that Clarityâ„¢ is actively working. Rapid clarification will follow. In the case of chemical or particulate clouding clean filter filter floss or cartridge after tanks clears. (Note: The 2 & 4 L containerâ€™s cap is 10Â mL)Available Sizes: 250 ml, 500 ml, 2 L, 4 L, 20 L
