

Dymax Protein Skimmer Recirculating Series

Product Description:

The DYMAX Re-Circulating Protein Skimmer offer the best configuration for the highest possible extraction per pass through. This design allows you to control the flow rate through skimmer. The foam generating pumps work on a loop that takes water from the body, mix it with air, shred it and pump it back into the body.Â Â There are two sizes for the Recirculating Series

Â RS40

Â~ 120mm

H 600mm

Max.Cap.1200LRS60

Â~ 150mm

H 680mm

Max.Cap.1500L
