Marc Weiss F.O.R.M LIQUID

Â "Natureâ€™s source of trace
elements and
microbial stimulates"Â
- Contains Calcium, Magnesium, Strontium, Iodine and moreÂ
- Utilized as needed by the life within the aquariumÂ
- Provides enough basic trace elements to avoid additional chemical supplementationÂ
- Inspires the beneficial microbes that are needed to maintain the biochemical cycles and keep the aquarium
cleanProduct Description:
Funky Old Reef Mud is a natural blend of minerals and beneficial organics. Itsâ€™ express purpose is to condition the water in favor of the microscopic flora and fauna contained in the aquarium. The aquarium waterâ€™s ionic potential changes and instantly the microbial populations react in an excited and beneficial manner.
Â INGREDIENTS:
Iron, magnesium, calcium, sulfur, sodium, iodine, selenium, molygdenum, copper, yeasts, quartz
Derived from ferment of: Sea-vegetables, yeast, freshwater and sea water earths
