

## Hamilton 4000w 14000k Single Ended HQI Bulb

### HAMILTON METAL HALIDE 400W 14,000K BULB

- Ideal Choice for Marine and Reef Aquariums
- Outstanding intensity and color with a high PAR value light
- OUR BEST - bright ice white blue appearance
- Simulates sunlight at ocean depths of 8-20 feet
- Promotes the development of photosynthetic plants, anemones and coral
- Greater light output and brighter with a better color stability consisting primarily of high spikes in 440-460nm (nanometer) range and additional smaller spikes in 550, 590 and 690nm
- Intensifies the natural vibrant fluorescence in fish, coral and marine life
- Use with a 400 watt Magnetic ballast with ANSI code M59 or a 400 watt Electronic ballast
