

Ocean Nutrition - Shrimp Wafers

Shrimp Wafers Product Description:

The ever increasing popularity of freshwater shrimps in the aquarium hobby through nano and planted aquaria inspired us to create a staple diet for these invertebrates (Caridina, Neocaridina, etc.). These highly attractive wafers (+/- 2.3mm) have been carefully sized for freshwater shrimp, encouraging their fascinating feeding antics. Once distributed, shrimps will gather in the feeding area. Contains a high percentage of Spirulina to improve coloration and disease resistance. Feed 1 to 2 wafers per shrimp per day.

- Careful sizing encouraging natural feeding behavior (see picture).
- The wafers provide all vitamins, minerals and proteins the shrimps need. They contain high levels of Spirulina.
- Easily digestible, the protein content is appropriate for shrimps.
- These sinking wafers can easily remain in the water for over 24 hours without disintegrating.
- Does not cloud the water.

Ingredients: Wheat flour, fish meal, broken rice, soybean meal, brewers yeast, salmon oil, kelp meal, wheat gluten, spirulina, krill meal, lecithin, minerals, vitamins (ascorbic acid (vitamin C), alpha-tocopherol acetate (vitamin E), pantothenic acid, pyridoxine (vitamin B6), folic acid, retinol (vitamin A), cholecalciferol (vitamin D3), biotin, cyanocobalamin (vitamin B12), menadione sodium bisulfite (vitamin K3)), amino acids, preservatives (calcium propionate, potassium sorbate, ethoxyquin).

Available Sizes: 1009600, Shrimp Wafers, jar of 15gr
