

Dymax Iron Essential

Â

Â Dymax Iron Essential is specially formulated to provide essential iron, nitrogen, magnesium and other micronutrients that help to enhance the colour of aquatic plants as well as to accelerate rapid plant growth. Dymax Iron Essential is the supplement that aquatic plants need for vigorous growth and healthy leaves and roots that contains no phosphates to cause unwanted algae growth. This supplement can also be use simultaneously with other Dymax products especially with Dymax Flora Plus and Dymax Ultra Black Water that will help to accelerate cell division and stimulate quick absorption of root system.

Size : 150ml, 300ml
