

Ocean Nutrition - AROWANA SPA

AROWANA SPA Product Description:

An entirely natural product based on wild almond leaves to mimic the Arowana's natural environment. Significantly reduces stress and alleviates stress related problems. Colorless, it helps clarify the water and limits the spread of algae. Recommended doses: 5ml per 20l of water for normal applications. Use with every water change. In case of severe stress symptoms, the concentration can be doubled.

- The Arowana Spa creates a more natural environment for the Asian Arowana.
- Natural product, based on wild almond (Katapang) leaves. Safe for fish and plants.
- Contains humic acids.
- Boosts the fish's immune system. Helps to prevent the development of pathogenic fungi on fins and skin.
- Natural color enhancer for your fish. Acidifies and adds essential trace elements to the water. Ingredients

Wild almond leaves extract (Terminalia Catappa), almond extract, preservatives.
