

Dymax Clear X Powder

Â

Advantages :

The aqua clear powder clear your aquarium water quickly and effectively. The powder helps to remove cloudy water, green water and purify water conditions. It can also be use on both marine and freshwater aquarium or even planted tank without affecting the aquatic plants and fishes. Long lasting effect that last up to more than a month of clear water.

Â

Directions :Â

- Â use 1 bag of powder to treat about 250L of water.
- only 1 treatment is adequate
- place some powder within the filter media
- apply the rest into the aquarium tank
- work extremely well without activated carbon
- will not affect fishes and aquatic plants even overdose
- overdose will only slow down cleaning process
- keep out of reach of children
